

ABHIRAM P S

AI & ML ENGINEER

Kerala, India | 8590678153 | abhiramparappurath@gmail.com

linkedin.com/in/abhiram-ps- | github.com/Abhiram062004

PROFESSIONAL OBJECTIVE

Aspiring AI & ML Engineer with a strong foundation in Python, machine learning, data analysis, and artificial intelligence. Passionate about developing intelligent and data-driven solutions to solve real-world problems. Seeking an opportunity to apply my technical knowledge, enhance my practical skills, and contribute to innovative projects in the fields of Artificial Intelligence and Machine Learning.

TECHNICAL SKILLS

Programming Languages: Python, Java, SQL, C

Machine Learning & AI: TensorFlow, Scikit-learn, CNN

Computer Vision: OpenCV, MediaPipe

Data Analysis & Visualization: Pandas, NumPy, Matplotlib, Seaborn

Tools & Platforms: Google Colab, Jupyter Notebook, Google Vision API

Database: MySQL

PROFESSIONAL EXPERIENCE

Data Operator – Cherpu Block Panchayat | Sep 2024-Oct 2024

- Managed and processed data for a government project.
- Ensured data accuracy and organized records for efficient data handling.

Python Programming Training – PACE Lab, Kochi | Jun 2024-Jul 2024

- Gained hands-on experience in Python programming, scripting, and basic automation.
- Applied programming concepts to solve practical problems.

PROJECTS

Ai-Powered Crop Disease Detection (CNN)

- Developed a CNN-based system to detect diseases in crop leaves.
- Classified diseases and provided treatment recommendations.
- Focused on eco-friendly and scalable agricultural solutions.

Virtual Physical Therapist

- Built a real-time pose estimation system for exercise monitoring.
- Implemented joint angle calculation and repetition counting.
- Provided accuracy scoring and visual feedback.

SkillGap Ai – Personalized Career Skill Gap Analyzer

- Built an AI-powered web application to analyze users' existing skills against selected job requirements.
- Implemented skill gap detection and Career Readiness Score calculation using Python and Scikit-learn.
- Provided personalized learning paths with free courses, easy learning resources, and YouTube tutorials for missing skills.

MAD Assistant – AI-Powered Personal Assistant

- Developed an AI-powered personal assistant using Python for intelligent user interactions and task automation.
- Implemented NLP and voice recognition to process user commands and generate real-time responses.
- Designed an interactive interface to improve user experience, accessibility, and task efficiency.

CERTIFICATIONS

Artificial Intelligence & Robotics | R Programming | Linux, LaTeX, HTML Training | Python Programming Training | C++ Programming

EDUCATION

B-Tech Artificial Intelligence and Machine Learning | 2022 – 2026

Vidya Academy of Science and Technology (KTU)

Higher Secondary (Computer Science) | 2022

ST Thomas HSS, Thrissur

LANGUAGES

English, Malayalam
