

ABHIRAM P S

AI & ML ENGINEER

Kerala, India | 8590678153 | abhiramparappurath@gmail.com

linkedin.com/in/abhiram-ps- | github.com/Abhiram062004

PROFESSIONAL OBJECTIVE

AI & ML Engineer with hands-on experience in Python, Machine Learning, Deep Learning, Computer Vision, NLP, and data analysis. Developed AI-based applications including crop disease detection using CNN, real-time exercise monitoring using computer vision, career skill gap analysis, and a voice-enabled personal assistant. Skilled in Python, TensorFlow, Scikit-learn, OpenCV, MediaPipe, Pandas, NumPy, SQL, and MySQL. Seeking an entry-level AI/ML Engineer or Machine Learning Engineer role to develop data-driven and intelligent solutions.

TECHNICAL SKILLS

Languages: Python, SQL, C

AI/ML: Scikit-learn, NLP, Pandas, NumPy, Matplotlib, Seaborn

Deep Learning: TensorFlow, Convolutional Neural Networks (CNN)

Computer Vision: OpenCV, MediaPipe, Pose Estimation

Databases: MySQL

PROFESSIONAL EXPERIENCE

Data Operator – Cherpu Block Panchayat | Sep 2024-Oct 2024

- Managed and processed data for a government project.
- Ensured data accuracy and organized records for efficient data handling.

Python Programming Training – PACE Lab, Kochi | Jun 2024-Jul 2024

- Gained hands-on experience in Python programming, scripting, and basic automation.
- Applied programming concepts to solve practical problems.

PROJECTS

SkillGap Ai – Personalized Career Skill Gap Analyzer

- Built an AI-powered web application to analyze users' existing skills against selected job requirements.
- Implemented skill gap detection and Career Readiness Score calculation using Python and Scikit-learn.
- Provided personalized learning paths with free courses, easy learning resources, and YouTube tutorials for missing skills.

Ai-Powered Crop Disease Detection (CNN)

- Developed a CNN-based system to detect diseases in crop leaves.
- Classified diseases and provided treatment recommendations.
- Focused on eco-friendly and scalable agricultural solutions.

Virtual Physical Therapist

- Built a real-time pose estimation system for exercise monitoring.
- Implemented joint angle calculation and repetition counting.
- Provided accuracy scoring and visual feedback.
